

ENTRANCE LEVER SETS

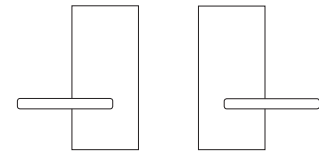

GENERAL INFORMATION

SINGLE CYLINDER
Entrance

DOUBLE CYLINDER
Entrance

FULL DUMMY
Entrance

HOW TO ORDER ENTRANCE LEVER SETS:

An Entrance Lever Trim includes:

- one exterior escutcheon
- one interior escutcheon
- two levers
- one spindle
- fastening devices for a 1³/₄" door. When other door thicknesses are to be used, please specify door thickness - we can accommodate door thicknesses up to 2³/₄".
- *Important:* Double cylinder functions installed on applications used for egress may be a safety hazard during an emergency. Installation of double cylinder functions should be in accordance with local codes.

To complete an Entrance Lever Set:

- For **Single Cylinder** functions, please add to each Entrance Lever Trim: one mortise lock (8502 series) and one mortise cylinder (8701 series). See **section H** for further information on mortise locks and mortise cylinders and for complete ordering codes.
- For **Double Cylinder** functions, please add to each Entrance Lever Trim: one mortise lock (8502 series) and two mortise cylinders (8701 series). See **section H** for further information on mortise locks and mortise cylinders and for complete ordering codes.
- Always specify finish, door hand and door thickness.
- For general ordering information, please refer to the General Ordering Instructions in the PREFACE section of the catalog.

Special Features of the Bouvet Line: *Customization*

- All door levers (1000 series) and door knobs (1600 series) can substitute for the lever included with the trim.
- All components from the Entrance Lever Trims are interchangeable. Customers are welcome to compose their own trims.
- When ordering a customized Entrance Lever Trim, please compile a list of the components needed: escutcheons and levers (fastening devices will be supplied with the escutcheons and the appropriate spindle will be provided with the levers).
- Always specify finish, door hand and door thickness.
