

MULTIPOINT SYSTEMS

GENERAL INFORMATION

Single Cylinder
Multipoint Trim (35)

Multipoint Trim
Profile Cylinder (92)

HOW TO ORDER MULTIPOINT SYSTEM TRIM

MULTIPOINT SYSTEM TRIMS include: exterior and interior escutcheons, two levers prepared for 8 mm spindle, and fastening devices for 1³/₄" doors. When used with a Key in Knob Cylinder or with a Profile Cylinder, please select the appropriate cylinder (8600 series) in **Section H**.

Important: Multipoint Trims can be adapted to most specifications. When placing an order, always specify the brand of the door used, center to center, type of cylinder, and, if possible, fax us an instruction template from the manufacturer.

- Always specify finish, door hand and door thickness.
- For general ordering information, please refer to the General Ordering Instructions in the PREFACE section of the catalog.

* Trims for Multipoint Systems do not include mechanisms.

** Profile Cylinder and Key in Knob Cylinder for Multipoint Systems are in **Section H**. Please choose appropriate size.

Note: When using a Multipoint Trim on clad doors or replacing existing hardware, mounting points for screws may not match those already in the door. It is important that the customer be informed that new holes may need to be drilled and to be certain that old holes will be covered by the escutcheons. However, Multipoint Trims can be custom adapted to most specifications. As most Multipoint manufactures have signed variations in their mechanisms, it is the responsibility of the purchaser to verify that the trim operates properly and satisfactorily with the mechanism. It is not Bouvet's responsibility to source out miscellaneous parts to ensure proper function.

*** For dummy sets, please specify if active (operating still bolts) or inactive (non-operating).
